

Форма где добавлять
записи

html

```
<form  
  hx-post = "add"  
  hx-target = "#task-list"  
  ...  
</form>
```

```
<div id="task-list">  
  {% include 'partials/task_list.html' %}  
</div>
```

python

```
@app.route('/add',  
            methods = ["POST"])  
def add():  
    ...  
    return render_template(  
        'partials/task_list.html',  
        ...  
    )
```

flask Jinja

```
{% ... %}
```
